PREFACE

This Mission Coverage Index (MCI) furnishes a compilation of intelligence targets covered by this mission. Items in the compilation are arranged in three sections:

Section I provides summary information for a) newly identified targets, b) previously reported targets which show a change, and c) all targets showing order of battle information.

Section II provides a listing of those targets which reflect no change in facilities from previous target description. The mission number shown on the photo reference line (e.g., NAC 9000) refers to the MCI which contains the most adequate description of that target. Military installations where no order of battle can be determined are listed under this section.

Section III provides a listing of those targets which could be identified but not interpreted.

All three sections are arranged 1) by country, 2) within a country by subject, 3) within a subject by WAC area, and 4) within a WAC area by coordinates reading from south to north and from west to east. The map base used (when available) for the derivation of coordinates in this report is the latest edition of the US Air Target Chart, Series 200.

For the convenience of the user, a subject index to all targets has been included following Section III. Targets in the subject index are listed 1) by category, 2) by country within each category, and 3) alphabetically by place name within each country. An explanation of column headings and photo reference data used in presenting the information is contained in the appendix.

NPIC/R-228/63

PREFACE (Continued)

The user of this MCI is cautioned that the scan of photography was accomplished in a relatively short time and often without the aid of precise analytical and mensural techniques commonly employed in detailed photographic analysis. Consequently, although the information presented herein is essentially accurate, additional, detailed analysis may somewhat alter portions of the information.

MISSION HIGHLIGHTS

Mission 9045, accomplished during the period 30 September through 2 October, 1962, provided 27 photographic passes over the Sino-Soviet Bloc. Utilization of a forward and an aft camera provided stereoscopic coverage. Approximately 35 percent of the coverage is cloud free.

Missile activity newly identified on Mission 9045 includes:

MRBM/IRBM

| Name | Launch Site Type | | | |
|-------------------------------------|------------------|----|-----|----|
| | I | II | III | IV |
| Kraskino MRBM Launch Site | -- | 1 | -- | -- |

COMPLETED SA-2 SAM SITE

25X1D

KALININGRAD SUSPECT NAVAL MISSILE STORAGE
8 NM NORTH OF KALININGRAD.
SUSPECT NAVAL MISSILE STORAGE IS
CLOUD-COVERED.

A NEW INSTALLATION PROBABLY ASSOCIATED WITH
THE SUSPECT MISSILE STORAGE CONSISTS OF A
BUILDING AREA, POSSIBLY UNDER CONSTRUCTION,
LOCATED ONE NM TO THE WEST ON THE SAME ROAD AS
THE SUSPECT MISSILE STORAGE AND A SEMICIRCULAR
ROAD THROUGH WOODS SERVING POSSIBLE DISPERSED
BUILDINGS.

POSSIBLE DISPERSED BUILDINGS MAY CORRESPOND TO
DISPERSED BUILDINGS OBSERVED AT DUNAY SITE.

25X1D

SVOBODNY ICBM LAUNCH COMPLEX
22 NM NORTH OF SVOBODNY.

EASTERN PORTION OF COMPLEX NOT COVERED BY
PHOTOGRAPHY. ONLY LAUNCH AREA A AND COMPLEX
SUPPORT FACILITY IDENTIFIED.

TOP SECRET

SECTION II

THIS SECTION PROVIDES A LISTING OF THOSE TARGETS WHICH REFLECT NO CHANGE IN FACILITIES FROM PREVIOUS TARGET DESCRIPTION. THE MISSION NUMBER SHOWN ON THE PHOTO REFERENCE LINE (E.G., NAC 9000) REFERS TO THE MCI WHICH CONTAINS THE MOST ADEQUATE DESCRIPTION OF THAT TARGET. MILITARY INSTALLATIONS WHERE NO ORDER OF BATTLE CAN BE DETERMINED ARE LISTED UNDER THIS SECTION.

APPENDIX EXPLANATION OF COLUMN HEADINGS AND PHOTO REFERENCES

City, Installation -- This column contains the name of the city or town nearest the installation, followed by the name of the installation. If the name of the installation is not known, it is titled according to its function. The city and installation names are followed by a capsule description, where appropriate.

Coordinates -- Coordinates are referenced to the SW corner of the minute square. When the subject installation covers a wide area, coordinates are given for the approximate center of the installation.

WAC -- This column provides the World Aeronautical Chart number for the area in which the subject installation lies.

Installation Numbers -- The Installation Numbers column is divided into two subcolumns. The first subcolumn lists, when known, the BE installation number assigned to the target. The second subcolumn lists the installation number assigned by NPIC. Installation numbers, when used to reference an item, should be prefixed by the appropriate WAC number, since installation numbers are repeated from WAC to WAC. For example, there is an NPIC target number 0049-1 and an NPIC target number 0050-1. In each instance, the NPIC installation number is 1, but the installations appear on different WACs.

The photo reference line, or lines, provides the pass number, frame numbers, and best-frame Universal Reference Grid coordinates for the target in question. In
